

Dear Student and Parent,

This coming year, the members of the Paly SciOly Club will be participating in the Science Olympiad regional and state competitions. As there were too few team positions available for everyone to qualify for a team, we want to be sure that the students we have selected will be able to attend the competitions.

The dates are as follows:

Green Team: Saturday, March 14 and Saturday, April 18

White Team: Saturday, March 14

On both dates, the competition lasts all day, and transportation will be either by bus, by van, or by carpooling.

Please sign below to indicate that you support your student's participation in Science Olympiad, and that to the best of your knowledge he/she will be able to attend the competitions. Additionally, please be aware that Science Olympiad is fairly expensive to participate in. Registration costs are about \$247 per team per contest for a total of \$740, in addition to building costs for our engineering events. We rely on parent donations to keep this club alive, so please indicate whether or not you wish to donate, and attach a check made out to Paly Science Olympiad Club if you choose to do so.

Sincerely,

Justin Holmgren
